WORK EXPERIENCE

Responsibilities:-

- Worked as salesforce developer in **Syncor Solutions Pvt Ltd**. From March 2021 to May 2022.
- Working as salesforce developer in **Global infovision Pvt Ltd**. from May 2022 to Present.

Project 1:**Project Name : Flat Is Fair****Client : Purestorage****Role : Developer/Admin.**

Flat is Fair project is to create renewals and apply renewal 120 days early using T-120 functionality. This Renewal process creates Quotes, Quote Lines, additional True-Up lines and Upgrade fee lines and quote the pricing to end user for every 120 days of updating product subscription. And also sell the FlashBlade and FlashArray products depending on the user requirement.

Technical Responsibilities:

- Introduced a T-120 logic to system that renews the subscriptions 120 days earlier.
- Provided user friendly UI experience called Entitlement Upgrade and Add T-120 Subscription on QLE.
- Worked on multiple technical areas like LWC, CPQ, Asynchronous Apex, Controllers, Complex designs, Data Loads, Custom Scripts, Price Rules.
- Implemented complex logics and optimised many complex test classes for meeting salesforce standards.
- Create quick action on quote detail page to generate document using LWC component.
- Build the customize generate document on CPQ.

Implemented triggers on renewal subscription

Project 2:**Project Name : Partner portal****Client : Purestorage****Role : Developer/Admin.**

Pure Storage helps modern organisations turn data into business advantage. As one of the fastest growing enterprise IT companies in history, through continued product innovation, Pure is delivering a modern data experience—empowering enterprises to run their operations as a true, automated, storage as-a-service. Pure Storage helps you embrace the future of cloud and data flexibility with a true, as-a-service model that's simple to manage and always evergreen.

Responsibilities:

- Worked on reviewing and suggesting enhancement solutions on Application-level security, primarily reducing the no of profiles by assigning permission sets to merge profiles by following industry best practices.
- Experience in community builder and access to different profiles for community users.
- Implemented Salesforce Lightning Web Components for community profile users.
- Implementing login flows for community user for field update.
- Worked as field level security using permission sets.
- Working for enhancement using Lightning components, Classes, Controllers, Triggers, LWC and aura components, visual force pages.
- Identifying bugs and fixing them as expected behaviours.
- Developed Batch Apex Classes and scheduled those Apex Schedulable Classes.
- Developed future methods for updating/inserting setup object.
- Worked on validation rules for restrict access level of salesforce login users.

Environment: Apex classes, triggers, batch class, future methods, Aura and LWC.

Environment: Tabs, Page Layouts, Permission sets, permission set groups, custom permissions, flows, login flows, validation rules, Community builder.

Project 3,4:

Project Name : Partner portal

Client : Talitrix, Life-way sciences.

Role : Developer/Admin.

Responsibilities:

- Designed and built basic lightning Components using custom basic reusable **LWC components** [UI to Upgrade current subscription, Record from to create records, Throw toast notifications, UI for Login Screen Flow, Created data tables of related objects in one component]
- Worked on Participant monitoring portal and Principal Investigator portals in Customer/**Partner Community**.
- Worked closely with Network security operations and security operation center to gather and understand **requirements** from Business and front-line people
- Implemented **Ring Central** in Life-way production.
- Successfully **implemented** “email notifications” from end to end using apex and automation
- Implemented on **process builders with lightning components** to manage the step-by-step Process to onboard customers.
- Conduct **training** sessions to ensure internal **stakeholders** can adequately and successfully navigate and leverage.
- Worked with integration team to integrate **stripe** for payments in Talitrix.
- Worked on Participant portal and Principal Investigator portals in Customer/Partner Community.
